

She's the voice behind the music, one of Amsterdam's favorite homegrown artists, and a constant presence on the international touring circuit; over the past decade Lady Bee has more than earned her status as leading lady of the global bass, moombahton and house scene.

Responsible for chart topping hits like 'Drop It Down Like', 'Bucka', 'Bring The Trumpets' and 'Return of the Mack', collaborating with the likes of TWRK, Tropkillaz, Alvaro & Mr-Vegas, she is just much at home releasing on independent Dutch labels and dance music's most iconic imprints - Spinnin', Dim Mak and Mad Decent - as she is working with the majors.

Renowned for her energy behind the decks, her phenomenal presence on stage and her ability to whip crowd of any size into a frenzy, Lady Bee is also a beacon for positive artist collaboration, working with producers big and small across a huge range of genres. The only thing that matters to her is Da Music.
